Informed Consent to Perform HIV Testing

I agree to testing for HIV infection. If I am found to have HIV, I agree to additional testing which may occur on the sample I provide today to determine the best treatment for me and to help guide HIV prevention programs. I also agree to future tests to guide my treatment. I understand that I can withdraw my consent for future tests at any time.

For pregnant women only:
In addition to the testing described above, I authorize my health care professional to repeat HIV diagnostic testing later in this pregnancy. I understand that my health care provider will discuss this testing with me before the test is repeated and will provide me with the test results. The consent to repeat diagnostic testing is limited to the course of my current pregnancy and can be withdrawn at any time.

Signature: _____ Date:_____

ADVANCE BENEFICIARY NOTICE (ABN)
To the Beneficiary: Your physician may sometimes order laboratory testing that he or she believes to be necessary for your care, but which do es not qualify for coverage under Medicare's standards. Medicare will only pay for services that it determines to be "reasonable and necessary" based upon the diagnosis information furnished to DART MEDICAL LABORATORY by your physician. If, *under Medicare's standards*, your diagnosis does not support the testing ordered, Medicare will deny coverage. In those cases where Medicare denies coverage, the billing will be forwarded to you, and you will be responsible for the cost of the laboratory tests.
Beneficiary Agreement: I have been notified by my physician/supplier that he or she believes that, in my case, Medicare may deny payment for the services identified above. If Medicare denies payment, I agree to be personally and fully responsible for payment.
